

The Paper...17lb Vellum

Although 17lb vellum is the best paper for paper piecing projects, it can be difficult to find in stores. And yes, it **must** be 17lb. *Please do not order any paper that doesn't specifically state 17# or 17lb.*

Although the paper might seem a bit pricey, I promise you you'll get more than your money's worth:)

- Since 17lb vellum is rarely sold in stores, be prepared to order it online.
- 17lb vellum goes through the printer the same as copy paper. When printing, set your copier to "Best" quality printing.
- Please be sure to order your paper early so that you get it in time for the workshop.
